FOREWORD

The splendor of the sun
Radiating its glory and its power;
Moving untamingly through its infinite cycle:
Sunrise, sunset . . . night, darkness.

Man's progress through life is similar.
His sunrise—the beginning, the period
In which he prepares to face the future,
To challenge the world and those obstacles
Which confront him in his search for the RIGHT,
The GOOD.

Growth, too, has its influence.
By this process man has the ability to
Adapt both physically and mentally to his
Environment, to become a unique individual,
An entity in his own being.

Sunset—the culmination of growth and preparation,
The time to use what he has learned and apply it to life.
This is the measure of man's *achievement*—not superfluous
Things which bring him temporary recognition, but the
Ability to take what he has learned and skillfully
Apply it to life, to make the best use of his potential
Qualities and virtues in order to make himself a
Successful being.

The editor and his staff submit this book as a
pictorial representation of individual preparation, growth
and achievement at Oglethorpe—processes which, it is hoped,
will prepare each individual to face the future, to accept
the fact that he is only on the threshold of life in which
success or failure will be of his own making.

Because we strive to create a yearbook with the same enthusiastic approach to imaginative thinking that prompts Oglethorpe to inspire eager minds to active endeavor, we wish to dedicate our efforts to a man whose own enthusiasm and eagerness has guided our PREPARATION, contributed to our GROWTH, and encouraged our ACHIEVEMENTS.

The 1962 Yamacraw, therefore, is dedicated to . . .

“POP” CROW

“Pop” has said, “To me Oglethorpe means an ideal environment for education-freedom, opportunity, and a spirit of responsibility.” Through his work as teacher and counselor, “Pop” has made the Oglethorpe environment more than an ideal; it is an actual experiment in learning. He has urged the students of Oglethorpe to digest knowledge and to transform it into energy.

“Pop” said, “I would hope to contribute to the philosophy that knowledge is simply a tool of life’s trade.” He has certainly made such a contribution. We, who are now in the process of reaching for the tools with which to shape our lives, do gratefully and affectionately acknowledge “Pop” Crow as a valuable teacher and a sincere friend.

OFFICE OF THE PRESIDENT

The theme of this year's Yamacraw recalls the lines of Walt Whitman:

'We have watch'd the seasons dispensing themselves, and passing on,
We have said, Why should not a man or woman do as much as the seasons, and effuse as much?
"We dwell a while in every city and town;
We pass through Canada, the north-east, the vast valley of the Mississippi, and the Southern
States;
We confer on equal terms with each of the States,
We make trial of ourselves, and invite men and women to hear;
We say to ourselves, Remember, fear not, be candid, promulge the body and the Soul;
Dwell a while and pass on, be copious, temperate, chaste, magnetic,
And what you effuse may then return as the seasons return,
And may be just as much as the seasons."

The seasons are symbols not only of our growth in time, but our gifts to the enrichment of time. In this setting, the college experience may be a movement from naïveté to sophistication, from prejudice to tolerance, from dogma to a search for truth, and from childish fears to mature confidence. These are the seasons of change and beauty from the "winter of our discontent" to the time of rich harvests of maturity. The passing of a year, or of a four-year college experience, is more than the passing of time. It is marked by change. And it is this change that gives significance to time. If this change is to have the fullest value, it must be more than mere observation. It must be an interaction with events. Then, "what you effuse may then return as the seasons return, and may be just as much as the seasons."

DONALD C. AGNEW, A. B. *Park College*, 1929, M. A. *Duke University*, 1932, Ph.D. *Duke University*, 1936, is the President of *Oglethorpe University*. He has served in this capacity since 1957. Dr. Agnew, in addition to his many duties with the

Man's sunrise—the bleak beginning from which he molds the life he is to live. Each man is given a sunrise and has until sunset to develop within himself character, respect, and spirit. It is at this beginning that man must decide what his wants are and then proceed to PREPARE to achieve these desires.

And, yes, we loved Oglethorpe well.

—Gail Walker—

*Graduation is not the culmination or twilight of our experience with Oglethorpe. It is really a giant step into a new relationship with her. It is the drawing of a new and grandeur appreciation of her values. We learn to love Oglethorpe while we are here, but we need more time to be nurtured and matured in that love. Education at Oglethorpe is not a diploma or four years of formal studying, but it is a way of life.

Welcome, O Sunrise of Graduation. Usher in the opportunity to love and appreciate that which is already a part of us.

Since life is short, once one has made preparations for it, he must immediately begin to GROW. The time for this phase varies from father to son and from brother to brother. This period of growth reveals the true self of man to himself as well as to others. Whether the results be good or bad, man should always strive to attain the heights of truth.

INTRAMURAL STORY

This year marked the renaissance of the intramural program at Oglethorpe. Under the able leadership of the revitalized intramural committee and Coach Billy Carter the program has indeed had a rebirth. It has sponsored individual sports from tennis to frisbee and team sports from football to softball. The committee recognizes that the program is far from complete, but it is proud of the progress made this year. The committee hopes that in the near future every student can participate in an activity of his or her choosing the entire year around. This is a high goal but one that is essential to any well balanced university program. With the dedication of the intramural program to this ideal and a growing involvement on the part of all students, this goal should not be in the too distant future.

CHEERLEADERS

A PETREL SPEAKS

ON OGLETHORPE ATHLETICS

The athletic department feels a responsibility for student activity in intramurals, intercollegiate athletics, physical education and leisure time recreational activities.

The addition of soccer has brought about the greatest improvement in the intercollegiate program during the school year of 1961-62. Coach Carter's work with the intramural council has resulted in the first successful intramural program in some years. The opportunities for leisure time physical activities have been greatly improved.

Mrs. Ruby Sewell has done an outstanding job with the girl's physical education program. Our main object will be improvement in the total physical education program during the coming years. At the same time we hope to take no backward steps in any part of the over-all athletic program. We cannot feel 100% successful until each student has the opportunity to participate in some physical activity during most of the school year. Our efforts will be directed toward meeting this goal.

As man's sun sets, he looks back in review. It is also the moment of man's greatest achievement—the realization of life. He is honored in various ways according to what he has done during his period of Preparation and Growth. From this he goes on to a new day.

“There is an urge within the heart of man;
A voice that whispers: Try again; you can!
There is a wisdom planning every task;
A power who giveth all that he doth ask.”

What is Success?

It's struggling on with the will to win, but taking loss with a cheerful grin; it's sharing sorrow and work and mirth, and making better this good old earth; it's serving, striving through strain and stresses; it's doing your noblest.

That's success.

Best Wishes from
